SUMMARY

Results-driven Computer Science Engineering student (3rd year) skilled in HTML, CSS, Python. Experienced in building responsive, user-friendly web applications with hands-on full stack project work. Strong problem-solver with a collaborative mindset and a focus on clean UI/UX design and software engineering best practices.

EDUCATION

St. Peters College of Engineering and Technology

2023 – 2027

B.E. – Computer Science Engineering GPA: 7.14 / 10

Government Boys High School, Tiruvannamalai

2022 – 2023

Biology Group 69%

EXPERIENCE (INTERN)

Frontend Designer | Skill mate Startup

Oct 2022 – Nov 2025

- Built responsive web interfaces using HTML, CSS, JavaScript, and React.js; applied UI/UX principles and component-based architecture to deliver consistent, mobile-friendly user experiences.
- Developed reusable frontend components and collaborated with cross-functional teams to optimise website performance, UI consistency, and overall responsiveness.
- Contributed to debugging, testing, and design improvements on live web applications using Figma and Canva, following structured frontend development workflows.

PROJECTS

Resume AI Builder

Dec 2025 – Present

React.js • Node.js • Express.js • MongoDB • Stripe API • AWS S3 • JWT Authentication

- Built a full stack AI-powered Resume Builder using React.js, Node.js, Express.js, and MongoDB with a responsive UI, scalable REST APIs, and optimised database operations.
- Implemented JWT authentication, AWS S3 file storage, and Stripe API for secure user data handling, resume storage, and premium subscription payments.
- Integrated AI-assisted resume generation with customisable templates, real-time preview, and improved frontend-backend integration across full deployment workflows.

TECHNICAL SKILLS

Languages: Python, HTML, CSS

Developer Tools: Figma, Canva, VS Code ,GitHub
